

“EARTH DAY”

Dear Earth,

on April 22nd is your day, but all of us must remember that Earth Day is every day! We are

thankful for our planet; thus, we are writing a letter to say thank you.

Thank you for the house you give us and for the water and the land.

Men repay you with dirt and pollution, but now STOP! This must never happen again!

Thank you for the trees and nature you

give us. They are very important and precious for any living being.

Thank you for being there, for everything you offer us and because you always take care of us; I know sometimes we neglect you, but we will learn to respect you. Thank you for mountains and hills; for the air we breathe.

Thank you for animals because we love them.

Thank you for the sea and water because we love swimming; thank you for the seasons because our favorite one is Summer.

Thank you, my friend, from my heart, for the wonders you give us.

Thank you for the life and

the house where we live; you are very special.

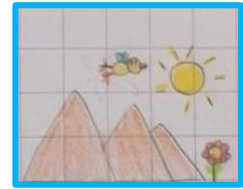

Thank you for rivers and lakes, for the sun that give us light and heat and for the moon; thank you for storms and rainbow at the end of them.

Thank you for the work and the fruits you give us, the good food you serve; we try to protect you as much as possible.

Thanks for your wonderful landscapes.
Thank you for taking care of us every single
day. Now it is up to us ... taking care of you
because you are our home!

We promise you to learn to live in harmony with you.
Thank you for all: we love you!
